

CONVERGE

**CONVERGE Initiatives:
Contraction and Convergence in Practice**

Edina Vadovics / Simon Milton
GreenDependent Institute, Hungary

Framework and rationale for CONVERGE project research

- ▶ "The literatures on human development and sustainable developmenthave long been separate", and...
- ▶ "the majority of the sustainability discourse tends to neglect, if not outright ignore intragenerational equity issues" (Hayward, 2006)

Two, largely separate fields

STRONG (environmental) sustainability

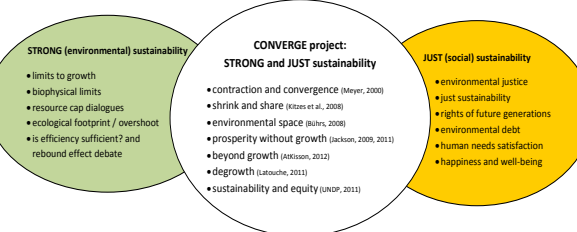

- limits to growth
- biophysical limits
- resource cap dialogues
- ecological footprint / overshoot
- is efficiency sufficient? and rebound effect debate

JUST (social) sustainability

- environmental justice
- just sustainability
- rights of future generations
- environmental debt
- human needs satisfaction
- happiness and well-being

Where does the CONVERGE project fit?

STRONG (environmental) sustainability

- limits to growth
- biophysical limits
- resource cap dialogues
- ecological footprint / overshoot
- is efficiency sufficient? and rebound effect debate

**CONVERGE project:
STRONG and JUST sustainability**

- contraction and convergence (Meyer, 2000)
- shrink and share (Kraus et al., 2008)
- environmental space (Buihrs, 2008)
- prosperity without growth (Jackson, 2009, 2011)
- beyond growth (Alkisson, 2012)
- degrowth (Latouche, 2011)
- sustainability and equity (UNEP, 2011)

JUST (social) sustainability

- environmental justice
- just sustainability
- rights of future generations
- environmental debt
- human needs satisfaction
- happiness and well-being

What is sustainability in this framework?

- ▶ **'Prosperity without growth' definition:**
(in agreement with 'Shrink and Share', 'Environmental space', and 'Beyond Growth')

„The vision of sustainable development in terms of a strong, healthy and just society able to flourish within the ecological limits of a finite planet...”

- ▶ Recent (2011) **Human Development report** by UNDP:
Sustainability **AND** Equity

GreenDependent's work in CONVERGE: initiatives illustrating Contraction and Convergence

- ▶ **Aim:**
 - ✓ Identify and analyze initiatives illustrating contraction and convergence from around the world, and
 - ✓ Through them show how contraction and convergence works in practice (if at all)
- ▶ The aim was not to assemble a representative database of initiatives but to illustrate variety:
 - ✓ Developed and developing
 - ✓ Top-down and bottom-up
 - ✓ Themes (carbon specific, faith based, agriculture, corporate, etc.)
- ▶ **Number of initiatives studied:**

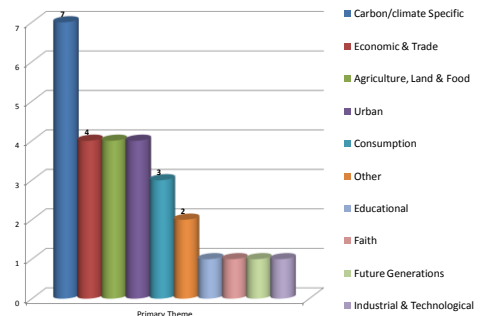

Overview of shortlisted initiatives: regions

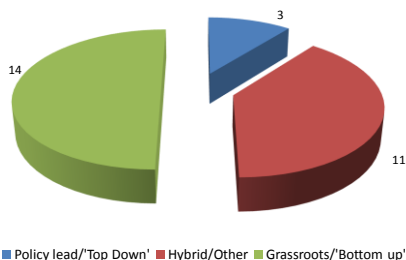

- Initiatives are from more than 10 countries
- International: ZERI, Voluntary Simplicity

Overview of shortlisted initiatives: theme

Overview of shortlisted initiatives: governance type

■ Policy lead/Top Down ■ Hybrid/Other ■ Grassroots/Bottom up

Hybrid: e.g Vauban, Zeri, etc.

CONVERGE

GreenDependent's Research

- ▶ Studying the initiatives from a variety of perspectives
 - ▶ Themes/governance/beneficiaries and participants/scale/barriers/evolution, etc.
- ▶ Most importantly: contraction and convergence aspects
 - ▶ An index was developed to evaluate the 'contraction' and 'convergence' elements of our shortlisted initiatives (based partly on Agyeman's "Just Sustainability Index").

Evaluating Contraction / Limits

- ▶ Contraction/Limits:
 - ✓ -1: mention of limits but no attempt/action to reduce
 - ✓ 0: no mention and recognition of limits
 - ✓ 1: implicit recognition of limits
 - ✓ 2: explicit recognition of limits
 - ✓ 3: explicit recognition of limits + reduction targets
 - ✓ 4: explicit recognition of limits + reduction targets based on available (scientific) data

Evaluating Convergence / Equity

- ▶ Convergence / Equity
 - ✓ -1: mention of equity/justice but no indication of activities
 - ✓ 0: no mention
 - ✓ 1: Implicit. No mention of equity/justice but initiative obviously works towards reaching them.
 - ✓ 2: No mention of equity/justice in core mission statement. Limited mention elsewhere + activities.
 - ✓ 3: Equity or justice mentioned and reference given to *either* intergenerational *or* intragenerational equity in core mission statement + activities.
 - ✓ 4: Core mission statement relates to *both* intra- and intergenerational equity and justice + activities.
